

Audio Engineering and Production Certificate (2503)

The audio recording and production industry has been a mainstay of the communications field for many decades. The techniques used to create fine audio programs have been a paramount issue in the media industry. With the advent of modern music and the associated industry promotion, there is an increased interest in this discipline. Lakeland's Audio Engineering and Production certificate program, in keeping with the industry's history of master/apprentice training, provides students with the opportunity to work with a teaching staff well recognized for its accomplishments in the world of broadcast, recording, sound reinforcement, and audio production. With its heavy emphasis on direct application of skills, the program helps prepare students for success in the audio recording and production industry.
