Youngstown State University’s (YSU) Bachelor of Science in Applied Science (BSAS) in Allied Health is a bachelor’s degree completion program for students who have completed an associate degree (or equivalent credential) in a healthcare-related field. Graduates of the program often move into managerial roles in their current healthcare setting, continue into graduate-level study, or transition into medical/pharmaceutical sales. YSU will provide 30 semester hours of allied health classes taught by YSU professors online. Students pay YSU tuition and fees for these 30 hours. All other necessary coursework (general education and upper division courses, courses for the required A.A.S. and an optional minor) can be taken at Lakeland, paying Lakeland’s tuition costs.

PARALLEL LAKELAND PROGRAMS:  
An associate degree (or equivalent credential) in a healthcare profession is required.

WHEN SHOULD I REQUEST AN EVALUATION OF MY CREDITS?  
Students are encouraged to schedule an appointment to have their transcripts reviewed and gain a better understanding of the partnership prior to applying for graduation with their associate degree. Youngstown State University representatives will work with you to complete as many credits as possible at Lakeland’s tuition rate before transferring to YSU.
