BIOTECHNOLOGY SCIENCE

# Learn employable skills in just two years!

---

**As a biotechnology science student, you'll get the lab skills to perform laboratory techniques that employers look for in just two years.**

- » Learn lab skills that you can apply right away in a job.
- » Those skills will allow you to get an internship before you graduate to get real world experience.
- » That real-world experience can open the door to your first job in the biotech field.
- » Once you are in that first job, many biotech employers will pay or reimburse you to pursue a bachelor's degree in the field (saving you a lot of money!)
- » Lakeland's biotech grads work at these places: Cleveland Clinic, Case Western Reserve University, Louis Stokes VA Medical Center, Olon Ricerca Bioscience, Sherwin Williams, Steris, and many more!

**How long does it take to complete this program and be job-ready?**

- » 65 credits (2 years)
- » Program starts fall semester of each year.

## **Our students**

Those with bachelor's degrees in sciences like biology or chemistry are encouraged to explore opportunities in biotechnology. Many of our students already hold bachelor's degrees and excel in this program!

Graduates may choose to go on and specialize in a number of areas including medical, pharmaceutical, agricultural, environmental, forensic science, biological research and genetic engineering.

### Quality Education

Professors at Lakeland are experts in their fields with real-world experience. Lakeland prepares you for a high-demand career or for transfer to a four-year college or university.

### Affordable Tuition

Lakeland's tuition is about one-third the cost of most four-year schools. Many students are eligible to receive some form of financial assistance.

### Convenience

Lakeland offers convenient day, evening, weekend and online courses.

### Focus on Students

Lakeland offers a variety of student services to help you succeed, such as counseling, tutoring, computer labs, careers services, free parking and affordable child care.
