GRAPHIC DESIGN AND PHOTOGRAPHY

Creativity & design

A graphic designer is a visual problem solver. They plan, analyze and create visual solutions to communication challenges. Graphic designers are skilled in the use of photography, typography, design, color, layout, packaging, production, advertising design and presentation.

Our students learn the practical skills needed to enter the workforce as graphic designers and photographers. With hands-on experience in the classroom, you'll learn to use the latest state-of-the-art design technology, create a portfolio of your works and have the opportunity to display your works at Lakeland's annual student visual arts gallery show.

Degree & Certificate Options

Graphic Design:

- » Associate of Applied Business in Graphic Design
(4 semester, 61 credits)
- » Digital Print Production Certificate (2 semesters, 18 credits)
