CAMPUS • HYBRID • ONLINE

The Ursuline College Bachelor of Arts in Humanities program is an interdisciplinary studies concentration that encourages students to take a broad and integrative view of the arts and the humanities. The curriculum includes the study of art, music, drama, foreign languages, history, philosophy, literature and religion. As components of culture, these studies provide a deeper understanding of the individual and of the world. The art of being human/humane is the focus of this major. This focus enhances almost every possible career choice, whether education, business, government, human services, journalism, communication or entertainment.
