

50 Acts of Service

Service Project Title	Free Workshop: Visualizing Your Data Using GIS Part II
Date	October 6, 2017
Brief Description	A free workshop for nonprofit professionals who would like to learn more about GIS
Full Description	<p>This workshop is being taught by Lakeland faculty members, Mark Guizlo and Bobby Oliver. Mark is Geography and Geospatial Technology department chair. Bobby is a full time faculty member and both bring a depth of experience to share with our nonprofit partners.</p> <p>This workshop will provide participants an introduction to using open source software to turn your data into maps. Nonprofits can use these tools to see and show others where your donors, members and program participants are located. In this session you will learn how to access publicly available data and create a map. Participants will learn how to organize their own data so they can create organization specific maps. Participants should have basic computer skills (file management, Word, fundamental Excel)</p>
Location	GIS Lab Room C2063- Main Campus, Lakeland Community College
Resources Required	Participants should have attended the Visualizing Data Workshop I on September 22
Date and Time	8:30-11:30 am

So long as employees have their supervisors' approval, then reasonable amounts of time away from the regular work assignment to assist with limited, non-recurring, episodic college sponsored service projects does not have to be claimed as benefit time. Employees are encouraged to consider how they might, with supervisory approval, flex their work schedule to accommodate the volunteer activity.
