

Going to College?

Check out this **College Readiness Workshop** at Lakeland Community College!

Jump start your transition to college!

June 22 - 26, 2015

9 a.m. - noon at the Holden University Center

ATTENTION: Are you a high school junior, senior or recent graduate thinking about going to college? This five-day workshop will help you learn strategies and skills to become college ready!

To Register:

Online go to
www.lakelandcc.edu/ce
or call
440.525.7116.

Course number:
16UYTH132.01

Workshop Includes:

Am I ready for college writing? Explore the writing and English skills that are most important for making the transition from high school to college writing: understand assignments, develop a process that works for you, and work on a college-level paper with real college professors!

How does studying in college differ from high school? Learn strategies to increase success in college coursework. Study Smart teaches effective note-taking and test-taking methods, recognition of learning styles, and an overview of soft skills that increase confidence.

What kind of technology knowledge do I need for college? Understand college-level technology expectations and skills, such as: file management, online coursework and how to use Blackboard - an online study aid to help students. You will have the opportunity to experience hands-on, state-of-the-art technology inside Lakeland's new computer labs.

Why do I need to learn Time Management & Communication Skills? Learn how to prioritize, organize and feel "in control" of these essential skills and why you need them for college success.

What else do I need to know about the Library for college? Appreciate the valuable role of the library and how to evaluate information in a broad sense. In college, the library is one of your best friends.

What is College Knowledge? Knowing what to expect in college and how to identify and utilize the support resources you need is a big deal. See the differences between college and high school life related to: personal responsibility, class time, critical thinking skills, and the level of independence that students experience.
