CAMPUS • ONLINE

The Hiram College Bachelor of Arts in Entrepreneurship program engages students in the complexity of and interaction between organizations, the human behavior within them and the international and environmental contexts in which they operate. At Hiram College, entrepreneurship is more than organizing and starting a business. The skills and character fostered by the liberal arts are an excellent foundation for successful entrepreneurs who use their passion to create valued products, services and programs. The synergy of the liberal arts and entrepreneurship helps students develop the knowledge, skills and mindset necessary to enhance their own lives and those of their communities.
