

What can Lakeland do for me?

Thinking about re-careering?
Hoping to go back and finish college?
Looking to enhance your employability?

Lakeland's Men's Resource Center can help you determine if Lakeland has something - whether a degree, a certificate or just one class - to help you achieve your career or employment goals. This includes options that can lead, in one or two semesters, to in-demand jobs.

If you're only interested in taking a few classes - whether for professional or personal development - we can tell you about a fast and easy application process.

Not certain which direction you want to go? Ask us about a career assessment.

Call for an appointment and a cup of coffee at the Lakeland Men's Resource Center, or just to ask a question.
