

@ Lakeland Community College

AUGUST WORKSHOPS

Join us to learn, engage, and tap into the spirit of design thinking and fabrication.

6 P.M. - MAKE YOUR OWN TOTE BAG (\$5)

With summer now in full swing, learn basic patterning, cutting, and sewing techniques while creating your very own hooded towel.

NOON - CUSTOM PHONE CASE, PT. 1 (\$10)

Learn how to 3D print flexible TPU material to create a customized case that will outlive your phone.

NOON - CUSTOM PHONE CASE, PT. 2

Now that your phone case has been built, it's time get fancy! This portion of the workshop will focus on placing custom graphics onto your phone case using UV-printing technology.

NOON - CUSTOM CUTTING BOARDS (\$10)

Learn how to build a perfectly-customized cutting board using both a CNC router and high-resolution laser engraving machine.
