

Dental Hygiene

This program is delivered in person only and is not offered online. Completion meets Ohio's educational and licensure requirements for dental hygiene. Because it is not a distance education program, NC-SARA distance authorization does not apply. Students intending to practice in another state should independently confirm that their degree will satisfy that state's licensure requirements, which may differ or impose extra conditions. Lakeland Community College seeks to maintain accurate disclosures but does not guarantee licensure or certification in every state.
