

## **Real Estate**

This certificate program is delivered fully in person at Lakeland Community College. It meets Ohio's educational requirements for individuals seeking to pursue real estate licensure through the Ohio Department of Commerce, Division of Real Estate and Professional Licensing. Because it is not offered via distance education, NC-SARA out-of-state authorization does not apply. Students who plan to pursue real estate licensure or employment outside Ohio should contact that state's real estate licensing agency to confirm whether Ohio's coursework and qualifications will meet local requirements or if additional education or testing will be needed. Lakeland Community College strives to keep information accurate but does not guarantee licensure or certification eligibility in other states.
